

IDAPT Universal Charger i1 Eco

Full Details

IDAPT i1 Eco is a dual charger (tip and USB) that allows you to charge all your devices for today and tomorrow, reducing the daily impact on the environment.

Innovative interchangeable tip system allows you to use only one charger for all your devices, ensuring a future proof compatibility, thanks to our commitment to constantly develop new tips. Use it at home, in the car or while travelling and forget about the stand-by power draw with our revolutionary auto-off system.

Features

Universal & Upgradeable Charge all your electronic devices & enjoy complete compatibility

Simultaneous Charge up to 2 devices at the same time (1 tip point of charge + 1 USB charging port)

Interchangeable Tips Unique and patented tip system ensures a wide compatibility today and in the future.

Auto Off This charger features an "auto-off" function that powers down the device automatically when it's not in use or charging has finished.

Ecological Made of recyclable materials, this charger helps to conserve energy through its Auto-off system which turns off the charger while not in use.

Neat/Simple IDAPT is designed to eliminate cord clutter so you can charge several devices without a tangle of wires or the mess of charging cases of wireless pads.

USB Output High efficient USB allows you to charge tablets, ebooks, multimedia players and other portable devices.

Affordable IDAPT is an affordable way to charge all your devices. Save money now and in the future with a charger that will cover all your devices.

Car Plug Enjoy the benefits of IDAPT on the go with the included car plug.
